For Site Vice President

Working for you, working together!

- Hard Working
- Team Player
- Member Focused
- Goal Driven

In my time on the Executive Board, I have learned that my Sisters and Brothers of this Local are passionate, caring and do amazing things for the patients that rely on them!

My goal, if elected, is to make our site one that is safe, secure, and where we are treated with the respect and dignity that we show the people in our care. During this time of growth, we will need honesty, fairness, and solid leadership. I believe with your support; I can be that person.

In solidarity.
